

HISTORY

This is a four unit course where pupils study aspects of two major societies across a number of centuries.

Unit 1 - Study in Depth - Depression, War and Recovery, 1930-1951

The unit covers the main features of life in the Depression, of war on the Home Front and of Post-War Wales and England. Topics include the growth of Mass Unemployment, The Blitz and the setting up of the National Health Service.

Unit 2 - Study in Depth - Germany in Transition, 1919-1939

Impact of the First World War, the problems facing Weimar Germany, the rise of Adolf Hitler, the ways in which the Nazis influenced life in Germany, the beginning of World War 2.

Unit 3 - Thematic Study - Changes in Health & Medicine C.1340 - Present Day

This unit covers the causes, treatment and prevention of illness and disease, advances in medical knowledge, developments in patient care and advances in public health and welfare over time.

Unit 4 - Working as an Historian

This is a non-examination assessment and will involve the completion of two separate tasks, one with a focus on source evaluation and one on different historical interpretations of history.

HISTORY VISIT TO FRANCE/BELGIUM MARCH 2017
